Continuation of Substance of Interview including description of the general nature of what was discussed:

Examiner called the Applicant's representative to see if he would be willing to rejoin claims 6-15.

Claims 30-31, 33-39 allowable. The restriction requirement between inventions I and II as set forth in the Office action mailed on 06/30/2006 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claim 6-15, which required all the limitations of an allowable claim, previously withdrawn from consideration as a result of the restriction requirement, were canceled by applicant in the reply filed on 03/26/2007. The canceled, nonelected claim(s) may be reinstated and rejoined if those claims are amended to include the limitations of the product claims (so that they are allowable for the same reason). Applicant's representative was advised to do so (the rejoinder) by Examiner Amendment.

Applicant's representative chose not to rejoin claims 6-15.

In view of the withdrawal of the restriction requirement as to the linked inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
